SJBGS POLYTECHNIC

DEPARTMENT OF CIVIL ENGINEERING

Report on extensive survey camp 2022

The most important pillar of learning is “DOING”. Civil Engineer should be very conversant with the actual works of surveying, which this survey camp/project aims at the following course objectives

- Apply knowledge of mathematics, science, and engineering to understand the measurement techniques
- To train the students under difficult and realistic situation of the surveying project.
- To acquire a sound practical knowledge and application of theory and in practical to overcome the difficulties that could arise in field during surveying.
- The use of different survey instrument and to develop the team spirit at work
- To impart training in the use of modern surveying instruments and to acquire a comprehensive idea of the project.
- To impart confidence in the handling and management of the survey project.

Three batches of 25 students are involved in the survey camp. **T Girianna principal SJBGS polytechnic** shared a valuable information about survey camp it was nonstop 12 days where students are involved in the camp, head of the department civil Amith , camp co-ordinator Akshay kumar H S Their guidance helped students to explore more on the project. Students were marked on their innovation and overall idea about the project.
